

**Abstract of the Disclosure**

**METHOD OF MAKING CURVED HOSE**

5           The present invention is directed to a method for manufacturing a curved hose.  
The method is comprised of the steps of (a) forming a hose assembly, the hose assembly  
comprising: (i) an innermost layer of a halogenated polyolefin rubber; (ii) a polyester  
reinforcement overlaying the innermost layer, the reinforcement having disposed on its  
surface an RFL adhesive comprising a chlorosulfonated polyethylene rubber; and (iii) an  
10   elastomeric cover overlaying the braided reinforcement; (b) cutting the hose assembly  
into hose lengths; (c) shaping the hose lengths into predetermined curved hose shapes;  
and (d) curing the curved hose shapes.
